Sheet Metal Fabrication

Equipment Type:

- Laser Cutting
- Shear Cutting
- Press Brake Forming
- Automated Punching
- Punch Press Stamping
- Welding Robotic
 - MIG/GMAW (Metal Inert Gas/Gas Metal Arc Welding)
 - TIG/GTAW (Tungsten Inert Gas/Gas Tungsten Arc Welding)
 - Spot Welding Various Material Alloys
- Hard and Soft Tooling Capabilities

All Processes are Inspected to Customer Established Tolerances

Production: Prototype Through Long Run Production

New State of the Art Forming

Atlas's Salvagnini Performer automated forming center reduces forming costs up to 5 times that of a conventional press brake. This new technology ensures consistent quality and reduces manufacturing costs for complex formed parts such as large enclosures, metal doors, shelves, junction boxes, cabinets, security boxes, digital displays, and much more.

ATLAS NEWS WIRE

02-04-08

Atlas Manufacturing announces the launch of its newest precision fabrication machine, the TRUMPF TruPunch 5000. The acquisition of this machine will allow for longer, faster and more precise production runs. [More Info...](#)
